

# Help for cat owners fleeing domestic abuse

We know that people experiencing domestic abuse face multiple barriers to leaving abusive relationships, one being their beloved pets.

That's where Cats Protection can help. Through Paws Protect, we offer a free, confidential, specialist cat fostering service to survivors of domestic abuse, until they are safely able to be reunited with their pets.

To access the service or find out more, please contact our female-only team:

**W:** [www.cats.org.uk/paws-protect](http://www.cats.org.uk/paws-protect)

We regret that this service is currently only available to adults fleeing domestic abuse within the South East.
