Safeguarding Bulletin

July 2024

Issue 128

Our quarterly Safeguarding Bulletin has been released in January, April, July and October every year since 1992.

Previously, our Bulletin came in the form of a PDF, which you had to download before you could read it. This made it less accessible for some. So, we've now decided to make the Bulletin easier for everyone to access, through uploading it directly to our blog.

The conference will contribute to continued professional development for professionals and volunteers working with adults across a range of sectors.

Our conference features a selection of informative keynotes and workshops exploring effective techniques for working better together to safeguard adults. Here are some highlights from the programme:
